

Art Consultant (Part-Time):

Sargent Art has been manufacturing quality art supplies for over 50 years. Many of our products are currently being sold in retail craft & hobby stores around the world and through school dealers and educational catalogues. We are looking for PART TIME ART TEACHERS that could work a varied number of hours as needed, depending on territory requirements. The duties would include calling on school district/county art and purchasing directors to introduce and show how Sargent Art materials could be utilized in a classroom setting. Using Sargent Art materials, this individual would also prepare and present art lessons to school district art departments. This is an ideal part-time position for retired art teachers because of the flexibility of the work schedule and the fun of being able to use all of Sargent Art's wonderful products! You will be required to provide your own transportation but would be reimbursed accordingly. Sargent Art is an Equal Opportunity Employer.

Please send your Résumé along with recent photograph.
